

Rotary Youth Leadership Development Competition

On Thursday October 19th, 2017 several of Moate CS senior students were interviewed as part of the aforementioned competition. In preparation students were required to complete their applications which contained several pertinent sections including personal information, achievements, leadership roles and responsibilities and work experience. Students were then required to prepare for the interview component of this competition in their quests to be the chosen candidate to represent the school and local Rotary Club based in Athlone in the Regional phase of this competition. Deborah Fakeye was chosen after much deliberation by the interviewers Ciaran and Ivan and she will now represent us in the next round of this competition in November.

We highly commend the positive rivalry that ensued between the candidates. While each student aspired to be the chosen one they helped and prepared each other for the interviews and agreed that this competition correlated with Deborah's future goals and experience in a leadership capacity. We extend our good wishes to her in the Regional Final of the Youth Development Leadership Programme.
