

Critical Incident Management Plan (CIMP)

This policy is rooted in the Mission Statement and aims of the school, fostering partnership between parents, teachers and the community in the interest of children's learning. All members of the school community will be treated with respect and compassion irrespective of social, racial, sexual or ethnic background.

Aim

The aim of the CIMP is to help school management and staff to react quickly and effectively in the event of an incident, to enable us to maintain a sense of control and to ensure that appropriate support is offered to students and staff. Having a good plan should also help ensure that the effects on the students and staff will be limited. It should enable the school to effect a return to normality as soon as possible.

Identification of Potential Incident

- The death of a member of the school community through accident, violence, suicide or suspected suicide or other unexpected death
- An intrusion into the school
- An accident involving members of the school community including school outings
- An accident/tragedy in the wider community
- Serious damage to the school building through fire, flood, vandalism, etc
- The disappearance of a member of the school community

Creation of a coping supportive and caring ethos in the school

The School has put systems in place to help to build resilience in both staff and students, thus preparing them to cope with a range of life events. These include measures to address both the physical and psychological safety of the school community.

Examples of measures to address physical safety

- Evacuation plan.
- Regular fire drills.
- Fire exits and extinguishers regularly checked.
- Pre-opening/Post school supervision at the front gate.
- Rules of the yard and supervision of all break times.

Examples of measures to address psychological safety

The management and staff of Moate Community School aim to use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion.

For example:

1. Staff have access to training for their role in SPHE

2. Staff are familiar with the Child Protection Guidelines and Procedures and details of how to proceed with suspicions or disclosures
3. Books and resources on difficulties affecting the student are available
4. Information is provided on mental health in general and such specific areas as signs and symptoms of depression and anxiety
5. Staff are informed in the area of suicide awareness and some are trained in interventions for suicidal students
6. The school has developed links with a range of external agencies.
7. The school has a clear policy on bullying and deals with bullying in accordance with this policy
8. There is a Pastoral Care Committee and Policy in place in the school
9. Students who are identified as being at risk are referred to the designated staff member (e.g. guidance counsellor or support teacher), concerns are explored and the appropriate level of assistance and support is provided. Parents are informed, and where appropriate, a referral is made to an appropriate outside agency
10. Staff are informed about how to access support for themselves.

The members of the school staff will bear this in mind, and will seek to ensure that students do so also. For instance, the term 'suicide' will not be used unless there is solid information that death was due to suicide, *and* that the family involved consents to its use. The phrases 'tragic death' or 'sudden death' may be used instead. Similarly, the word 'murder' should not be used until it is legally established that a murder was committed.
